8:10 am - 8:30 am  AHRQ Evidence Review of Treatment Strategies for Patients with Chronic Venous Disease - Methods and Summary of Key Findings
8:30 am - 8:50 am  Methodology of Evidence Generation, Analysis and Synthesis: The AVF perspective
8:50 am - 9:10 am  NICE Guidelines - View of MEDCAC from Across the Pond
9:10 am - 9:30 am  Panel Discussion and Questions

9:30 am - 9:55 am  Coffee Break

9:50 am - 9:55 am  The Coalitions Gather - Overview
9:55 am - 10:00 am  KQ1 - Is There Sufficient Evidence? Interventions for Chronic Venous Insufficiency: Intermediate/Near Term Outcomes
10:00 am - 10:05 am  KQ1 - Is There Sufficient Evidence? Interventions for Chronic Venous Insufficiency: Long Term Outcomes
10:05 am - 10:10 am  KQ1 - Results of an Independent Review of Evidence on Endovascular Treatment for Symptomatic CVI
10:10 am - 10:15 am  KQ2 - Is There Sufficient Evidence? Interventions for Venous thrombosis: Intermediate/Near Term Outcomes
10:15 am - 10:20 am  KQ2 - Is There Sufficient Evidence? Interventions for Venous thrombosis: Long Term Outcomes
10:20 am - 10:25 am  What are the Current Evidence Based Gaps in Chronic Venous Disease?
10:25 am - 10:30 am  Treatment Disparities in Chronic Venous Disease - Do They Exist?
10:30 am - 10:35 am  Expectations for Implementation of Standard of Care in Medicare Beneficiaries
10:35 am - 10:40 am  Variatio Vein Registry - Early Results and Future Opportunities
10:40 am - 10:45 am  Venous Registry Cross-Fertilization - How Can We Get All The Data To Work Together?
10:45 am - 10:50 am  IAC-静脉: How Can Vein Center Accreditation Help?
10:50 am - 11:15 am  Interactive Session: The AVF Votes, Panel Discussion and Questions

Moderator: Marc Passman MD, Neil Khilnani MD and Lisa Amatangelo MD

11:30 am - 1:45 pm  Exhibit and Poster Hall Open
11:50 am - 1:00 pm  Industry Lunch Symposium Hosted by Philips Volcano
11:50 am - 1:00 pm  Industry Lunch Symposium Hosted by Medtronic
11:50 am - 1:00 pm  Lunch Buffet
12:55 pm - 1:00 pm  President & President Elect's Welcome

1:00 pm - 2:40 pm  Scientific Session 1: A Plunge into the Deep End, Moderators: Dr. Suresh Vedanthan and Dr. Lowell Kabnick
1:00 pm - 1:18 pm  1-1 Patency rates following stenting across the inguinal ligament for treatment of post-thrombotic syndrome using nitinol venous stents
1:18 pm - 1:36 pm  1-2 Impact of degree of stenosis in May-Thurner Syndrome on iliac vein stent outcomes
1:36 pm - 1:54 pm  1-3 iliac vein stenosis: an under-diagnosed cause of pelvic venous insufficiency
1:54 pm - 2:12 pm  1-4 Secondary interventions after iliac vein stenting for chronic proximal venous outflow obstruction
2:12 pm - 2:30 pm  1-5 The technical evolution and procedural outcomes of the contemporary hybrid operative procedure for incapacitating post-thrombotic iliofemoral, inferior vena caval (IVC) obstruction
2:30 pm - 2:35 pm  Q1-1 Venous recanalization, reflux, and obstruction following calf deep vein thrombosis
2:35 pm - 2:40 pm  Q1-2 The effect of balloon angioplasty of non-thrombotic iliac vein lesions
2:40 pm - 3:45 pm  2016 Servier Traveling Fellowship Report

2:50 pm - 4:20 pm  Specialty Symposia
2:50 pm - 4:20 pm  Society for Vascular Medicine (SVM) – Integrating New Concepts in Anticoagulation and Complex Edema Management into Clinical Practice, Moderators: Raghu Kolluri, MD and Teresa Carman, MD
2:50 pm - 3:00 pm  Anticoagulation and antiplatelet therapy in venous stent trials – What is it and what it should be?
3:00 pm - 3:10 pm  DOAC monitoring and reversal – When and how
3:20 pm - 3:35 pm  Panel Discussion and Q&A
3:35 pm - 3:45 pm  Edema assessment and overlap syndromes
3:45 pm - 3:55 pm  What's new in the management of lymphedema – genetic testing to surgical options
3:55 pm - 4:05 pm  How to achieve adequate compression in challenging situations – ulcers, asymmetric edema and massive edema
4:05 pm - 4:20 pm  Panel Discussion and Q&A

2:50 pm - 4:20 pm  ACP Session
2:50 pm - 3:00 pm  Visual Microsclerotherapy for C1 disease
3:00 pm - 3:10 pm  Chemical ablation of C2 disease
3:10 pm - 3:20 pm  Chemical ablation of saphenous trunks
3:20 pm - 3:30 pm  We need to create a new name and code for ultrasound guided chemical ablation
3:30 pm - 3:40 pm  Chemical ablation for venous leg ulcers
3:40 pm - 3:50 pm  How do I teach chemical ablation to peers and staff
3:50 pm - 4:00 pm  The evidence regarding the use of foam for C1 disease
4:00 pm - 4:10 pm  Management of adverse reactions to chemical ablation
4:10 pm - 4:20 pm  Panel Discussion and Q&A
4:20 pm - 4:40 pm  Coffee Break

4:35 pm - 5:40 pm  Villavicencio Symposium: The UNTHINKABLES in venous care: Is the unethical treatment of venous disease out of control?
4:35 pm - 4:40 pm  In honor of J. Leonel Villavicencio
4:40 pm - 4:50 pm  Overutilization and inappropriate venous practices: is it on the rise?

Moderator: Peter Gloviczki, Michael Dalising, Cynthia Shortell, Lowell Kabnick, Thomas O'Donnell, Thomas Wakefield, Fedor Lurie, Peter Lawrence, Mark Meissner MD
Friday, February 17

7:30 am - 8:00 am Scientific Session 4: A Good Picture is Worth 1,000 Veins
Moderators: Dr. Ruth Bush and Dr. Rahgu Kolluri
Grand Ballroom B-D
4:16 A 21-Year Report of the American Venous Forum Mentored Career Development Program: The BSN Jobst Research Award in Venous and Lymphatic Disease
Dr. Alyssa Long, Brazil
Faisal Aziz MD
Frank Padberg MD
Tana Repella, MD, PhD
Anil Hingorani
Polly Kokkosis MD
4:17 Characterization of profunda femoris vein deep venous thrombosis
Dr. Evgeny Ustroniew, Russia
4:16 Discussant
4:18 Correlation of transabdominal ultrasound with IVUS in diagnosing and treating iliac vein compression
Dr. Joseph El-Sheikh
Emma Dabbs
4:19 Analysis of threshold stenosis by multipurpose venogram and intravascular ultrasound for predicting clinical improvement after iliofemoral vein stenting: results from the VIDIO study
Dr. Jason Bjorkman, USA
4:19 Discussant
4:24 - 4:24 Review of 2016 BSN Jobst Research Fellowship Reports - Ryan Abdul-Haqq
4:47 Male patterns of pelvic venous reflux can be investigated with duplex ultrasonography and treated with coil embolisation
Anil Hingorani MD
Q4-8 Utilization of D-dimer along with clinical probability testing in determining the magnitude and location of deep vein thrombosis in a high volume tertiary practice
Paul Gagne MD
Angela Kokkosis MD
Ravi Viradia MD
4:24 Q4-8 Male patterns of pelvic venous reflux can be investigated with duplex ultrasonography and treated with coil embolisation
Anil Hingorani MD
Q4-8 Utilization of D-dimer along with clinical probability testing in determining the magnitude and location of deep vein thrombosis in a high volume tertiary practice
Paul Gagne MD
Angela Kokkosis MD
Ravi Viradia MD
